

Group Members: Krina Patel, Yash Patel, Shreyas Joshi and Huy Ngo

GitHub link: <https://github.com/soulden1202/group-3-capstone-project.git>

Time and place of the meeting:

- 8:00 AM, the meeting was conducted on Zoom on Friday Feb 3rd, 2023.

Who was present?

- Professor Michael Meluksy, Yash Patel, Krina Patel, Shreyas Joshi and Huy Ngo

What have you discussed with the faculty Advisor? ‘

- We showed him what we had accomplished so far with our project and gave him a glimpse of our backend. Then, in a later meeting with our group members, we started discussing ideas and seeking suggestions for improving our contact page.

What are his/her suggestions or comments?

- He gave us some really useful advice about our contact page. He pointed out that some devices might not be able to handle local http requests, so he suggested that we think about using a .net API if we have the time to implement it. Alternatively, if we decide to stick with our current email.js approach, he recommended that we make sure to add dependencies so that it will work on all machines.
